

BAR-END ATV MIRROR

INSTALLATION INSTRUCTIONS

CIPA PART #11132, 11134

INSTALLATION

Using a 3/16" Hex Wrench, loosen installation bolt and slide knob of Bar-End ATV Mirror into exposed end of handlebar.

Tighten Installation bolt of Bar-End ATV Mirror until a tight fit is achieved. Bar-End ATV Mirror should be snug into handlebar end at this time.

ADJUSTMENT

Using a Phillips Head Screwdriver, loosen adjustment screw. Adjust Bar-End ATV Mirror to desired position to give rider best rearview visibility.

Tighten adjustment screw on Bar-End ATV Mirror.
